

```
public class simpleinterst {  
    public static void main(String[] args) {  
        int p=1000,r=15,t=2,i;  
        i=(p*r*t)/100;  
        System.out.println("simple interest amount= "+i);  
    }  
}
```
